ADDITIONAL SPECIFICATIONS & DETAILS

CLEVER LEVER welded in place is standard on all OEMRs. The Clever Foot Lever reduces the pullback weight by up to 75%.

STABILIZER BRACKET is located on the cart. The bracket reduces the risk of the engine moving while running the outboard while mounted on the cart.

STORAGE POD for tools, cleaning supplies, cables, etc. Lockable. Eight compartments, four on each side.

LOCKING PINS to secure cart and rack together. Key locks or combination locks can be used in their place.

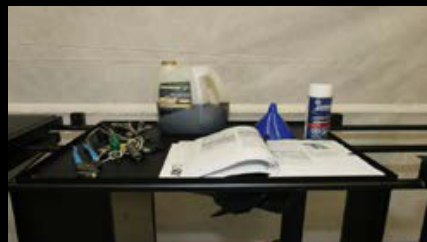

SPARE PROP & HARDWARE HOLDER used to carry a spare prop and prop hardware. Spare prop and hardware not included.

OIL POD holds up to a one gallon oil bottle.

STACKABLE up to three high. **WARNING*** when stacking three-high, the use of wall mounting hardware is suggested. Wall mounting hardware is not included.

WORK BENCH can be used to work on outboard while working in the field. Great place to hold small tools, components, parts and hardware.

CASTER WHEELS (OPTIONAL)

For use in shop. (Two swivel, two non-swivel). Allow entire system to be horizontal. Easier to load and unload into truck or trailer beds. Caster wheels can be left on the rack and cart is still able to be removed.
